# WHO ARE WE?

At Cold Vikin, we are dedicated to delivering a premium cold plunge and hot jetted tub experience designed for those who seek the benefits of cold therapy in the most efficient and comfortable way. Our advanced technology ensures a hygienic, energy-efficient, and cost-effective solution, eliminating the need for constant ice replenishment.

With 15+ years of experience in pool design & construction, we offer custom-built cold plunge pools as well. Our cold plunges are crafted with durability, performance, and aesthetics in mind, making them the perfect addition to any home, gym, wellness center, or personal recovery space. Whether you're looking to enhance physical recovery, mental resilience, or overall well-being, our products provide the ultimate cold immersion experience.

# HIGH QUALITY MATERIALS

Most of our models are crafted from high-impact antibacterial acrylic (export quality), reinforced with five layers of fiberglass for exceptional durability. They feature thermal insulation with polyurethane foam, high-flow connections, and thermofusion technology resistant to high temperatures, ensuring top performance and longevity.

Our Cold Vikin Barrel stands apart, handcrafted from solid oak and steel, designed to withstand any environment. The Mexico parota hardwood staircase and lid add a luxurious, natural touch to the experience.
